Call for Contributions

LSWT2022

10th Leipzig Semantic Web Day

https://dataweek.de/en/lswt2022/

Dear Colleagues,

The 10th Leipzig Semantic Web Day (#LSWT2022) will take place on 5 July 2022 online and on-site in the heart of Leipzig city, Germany.

Since 2009, the LSWT has been an opportunity for scientists, enterprises, and organisations to discuss topics in the field of Semantic Technology. This year the LSWT will be co-located with the 1st Data Week Leipzig, a multi-event focusing on digitization in heterogeneous areas of life as well as transparent, traceable, and sustainable applications. Data Week Leipzig combines individual events in research, politics and overall societal perspectives on artificial intelligence and data.

During the LSWT we will emphasize recent developments and trends in the fields of semantic technologies and data. Main points this year shall be **knowledge graphs and linked data, data integration, semantic web in industry, government and society, as well as artificial intelligence**. These emphases are demonstrated in presentations by experts from industry and science. We invite you to present your current work and latest ideas in a 15 - 30 minutes presentation. Contributions considering women in the mentioned fields are more than warmly welcomed. Presentations shall be held in English.

Beside sessions and keynotes, we are going to host a poster session with student works. Therefore, please feel free to share this call with any student who might be interested.

We look forward to your contributions to make this event a success! Please send your **ideas for a presentation until 1 June 2022** to Natanael Arndt: natanael.arndt@eccenca.com. If you have any further questions don't hesitate to contact us.

Kind regards from Leipzig,

Natanael Arndt (eccenca GmbH)
Andreas Both (HTWK Leipzig)
Michael Martin (InfAI e.V.)
Vera Meister (TH Brandenburg)
Thomas Riechert (HTWK Leipzig)
Nieves Sande (eccenca GmbH)
Sebastian Tramp (eccenca GmbH)
